## Next Board Meeting:

May 14, 2015 at 6:00 PM  
Old Susana Café  
1555 Kuehner Drive  
Simi, Ca 93065

## Drought Concerns & Water Saving Tips

As you may already be aware we are currently experiencing a drought and must reduce water usage significantly.

The Board is working conscientiously on maintaining the Association's landscaping and intends to review drought tolerant foliage in an effort to conserve water and lower expenses.

Here are a few suggestions on ways to permanently reduce the amount of water you use everyday:

1. Check for leaks (Inside and out)
2. Install low-flow shower heads
3. Replace older toilets with new water efficient models
4. Use drip irrigation and avoid overwatering

\*Please also be conservative when washing your vehicle.

[www.bewaterwise.com](http://www.bewaterwise.com)

\*Please note, the Board of Directors meetings have been rescheduled to be held on the second Thursday of each month.

## Architectural Modifications

It has come to our attention that many homeowners would like to make changes to the exterior of their homes. We are very pleased and welcome homeowner's efforts to improve the community.

We ask that all homeowners submit an Architectural Modification Request form as modifications to the exterior must have Architectural approval prior to making changes.
