

TO: WESTLAKE RESIDENTS
FROM: THE BOARD OF WESTLAKE POINTE
RE: DEMOLITION UPDATE

January 14, 2019

The Board has an update regarding Demolition process for the burned area on Canyon Crest Court.

Because of the hard work of our Fire Reconstruction Team, ASR, the Westlake Pointe properties that burned in the Woolsey Fire have been approved by the Fire Department to proceed to Phase Two of the Demolition. This is the point where ASR can remove the debris and begin rebuilding.

Although we are pleased that the Fire Department has approved us to proceed to Phase Two, it will be 4-5 weeks to move through the County and City bureaucracy and obtain the permits required for the actual demolition and debris removal.

We understand that this is taking longer than we expected. We are all anxious to move quickly and re-build our neighbor's homes. If you have any questions or need further information contact Cheri at Spectrum Property Management: Cheri@spectrumprops.com or **(805) 642-6160**.
