

The State of California mandated an overall water reduction of 25%, however, the City of Camarillo was only required to reduce 20% due to already lower usage in our City. The period of time that is measured is the months of **June – October** for 2015 compared to 2013.

Below is our list of water usage, we have actually reduced our water consumption by 25%. This is remarkable considering the issue with the water meter for 2 months and the extremely warm temperatures that we experienced for a much longer period of time in 2015 compared to 2013.

**Via Pajaro/Avenida Acaso      2015   2013**

June	121	93
July	126	358
August	138	61
September	134	185
October	130	161

**Corte Tiara**

June	277	2
July	268	0
August	185	343
September	299	437
October	282	401

**Pala Vista**

June	237	349
July	221	380
August	227	374
September	224	419
October	223	515

**Via Fresco/Avenida Acaso**

June	208	280
July	204	320
August	222	294
September	219	346
October	206	274

**Total of all 4 zones                      4151   5592**

Reduction of 25%
