ARCHITECTURAL RULES

All infractions of the Rules and Regulations are subject to fines

1. The C.C. & R's. direct that the maintenance for each home is the sole responsibility of the homeowner, but the Architectural Committee for the Board of Directors sets the standards for the visible exteriors. If a homeowner wishes to alter any part of the visible exterior, an application form supplied by the Management Company, must be filled out and submitted for approval. Plans and neighbors' comments may be necessary. Management will provide a list of approved paint colors. If paint colors other than those approved by the association are used, the homeowner will be fined and the fine will continue until color is corrected. **No work is to begin until Board approval is obtained.**

2. External repairs that do not change the external appearance, including heat pumps, roofs and decks, only require a report to Management describing the repair and timing so that we are aware of contractor's vehicles. If you have any question as to whether or not an application is necessary, check with management prior to beginning the work.

3. Most items outside your gate and walls are a part of the common area that is solely the responsibility of the HOA. Any change beyond the gate requires an application. Other than this, **no owner can make an alteration, addition or modification to any portion of the common area.**

4. The Architectural Committee will respond as quickly as possible to homeowner requests for approval. Approval of any proposed work must be in writing.

5. The Architectural Committee only approves or rejects submissions in keeping with aesthetic integrity of Westlake Pointe and is not responsible or liable for any issues relating to current building codes.

6. Homeowners are responsible for obtaining all appropriate permits from the City of Westlake Village. However, obtaining such permits does not necessarily mean approval by the Architectural Committee.

7. When work is completed, the homeowner must notify the Architectural Committee for inspection. The Architectural Committee has the right to rescind its approval if the work is not done in accordance with the documentation submitted and approved. If this should arise, the homeowner is 100% liable for all cost to correct the error and return the home to conditions in the original approved request from the Board.

8. Contractors or anyone doing any type of construction or using power tools is limited to Monday through Friday, 8 a.m. to 6 p.m., Saturday, 8:00 a.m. to 5:00 p.m., and is NOT PERMITTED on Sunday, New Year's Day, Memorial Day, July 4th, Labor Day, Thanksgiving and Christmas.

9. The complex must be clean and neat at all times and construction trash and debris must be removed from the site on a daily basis at the owner's expense. Dumpsters must first be approved by the Architectural Committee and must be placed as close as possible to the owner's driveway, but not blocking the fire lane. Proper support, such as plywood, must be placed under the wheels of the dumpster to prevent damage to the road surface. In the event of damage to the pavement, the owner shall be responsible for the cost of all repairs.

10. Neither the Architectural Committee nor the Association or its officers shall be liable for any damage, loss, or prejudice suffered or claimed following the approval or disapproval of any plans, drawings and specifications, or the construction or performance of any work, whether or not pursuant to approved plans, drawings and specifications.
