

QUESTIONNAIRE FOR UPCOMING TREE TRIMMING

Dear homeowner,

Sometime in November we will have our annual tree topping/trimming. We plan to use a new service contractor. In the past we had complaints during and after the event and this year we want to preempt this situation.

Some owners request tree topping for a better view of the lake (like on Lake Crest Ct.) and others do not want any topping so their privacy and noise consideration are improved (like on Canyon Ridge Rd).

We attach below a short questionnaire for you to express your requests, concerns and suggestions. Please keep in mind that we cannot guarantee compliance to all but will do our best. Some trees must be topped to avoid possible collapse if overgrown or due to excessive rains and root lifting.

Owner Name: _____

Street address: _____

Back view trees directly facing your unit property lines:

1. Trees we request TOPPING

2. Trees we ask to leave as-is, or thinning as suggested by Arborist

3. Trees or bushes too close to structure (wall or balcony) we request removal or punning

4. Any other comments or suggestions

With best regards,

Westlake Pointe HOA Landscaping Committee

Please return this form before November 14, 2015 to address below, and please DO NOT enclose with the November dues check.
