

Water Conservation Resources/Programs

CAMARILLO WATER
Too important to waste

- New conservation-minded landscaping guidelines:
 - 90% of front yard may be artificial turf & 10% live plants
 - 30% of drought tolerant landscaping must be live plants, the remaining 70% non-plant material such as bark, decomposed granite and decorative rock
- FREE residential water surveys call 388-5373
- Water saving tips and information regarding FREE workshops at www.cityofcamarillo.org/savewater
- Drought landscaping resources and information at www.camarillogardening.com
- Water-Use efficiency rebates available at www.bewaterwise.com

**A FOOL
AND HIS
WATER ARE
SOON PARTED.**
